

SKEGNESS INFANT ACADEMY

Photographic and film consent

Please read the information below and then complete the following details in block capitals and black ink.

Photographic and film consent

To comply with the General Data Protection Regulations 2018, we need to make you aware that from time to time we may photograph or film your child undertaking Academy activities. We may use the photographs or films either within the Academy and the Greenwood Academies Trust buildings (internally) or outside of the Academy and Trust buildings (externally).

The Academy may photograph your child for the purpose of identification in the Academy's management information system. The Academy may also use photographs and film for monitoring or educational uses (eg curriculum subjects requiring video and photographs to be submitted to external examiners). The Academy does not require parental consent for these purposes as they are deemed to be public interest.

The use of photographs and films of your child for other purposes require consent and you should tick the appropriate boxes below if you are willing to give such consent. Your child's name will not be used against your child's photograph to ensure that they cannot be easily identified.

Pupils will always be made aware if they are being photographed / filmed, what the purpose of this is and will be given the opportunity to object.

Photographic and film consent declaration
