

Time Travellers

Travelling through our imaginations and the past

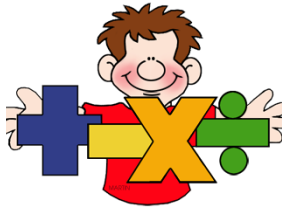

Year 2 Term 1 2023

This term as we welcome the children back to school we have been learning all about our school values which we will incorporate into our lessons throughout the year. Going forward we will be exploring three key texts: Journey and Quest written by Aaron Becker and Beekle written by Dan Santat. We will be exploring transport through history and looking at how the opening of Skegness Train Station in 1873 impacted upon the local area. In design we will look at how to make models move and we will be making our own moving vehicles.

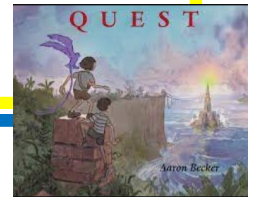

Maths

We will recap our learning from Year One and build on this. We will explore different strategies for addition and subtraction. We will look at partitioning numbers into tens and ones and using this to help us calculate number sentences. We will be looking at ordering numbers and using the greater and less than symbols to make comparisons between numbers.

English

We will be exploring our three key texts in detail. We will look at how Becker builds up stories in his wordless books. We will use these books as a basis for writing descriptions and stories. We will also recap different reading strategies throughout our guided reading sessions and we will begin to develop our retrieval skills.

Aaron Becker is our author of the term. He is an American author and illustrator and is best known for his wordless books.

Grammar, spelling and punctuation

Writing simple sentences and how to phrase, spell and punctuate questions. Exploring different word types—noun, adjective, verb and adverb.

Science

In Science we will explore different materials. We will name and describe a range of materials and look at how the properties are related to their use. We will then use these materials to make our model vehicles.

PSHCE—Being Me in my World

We will be looking how we fit into the Academy and class community. We will work together to explore rewards and consequences for our actions.

Class Teams Channel

We will continue using Teams this year. Please use the same login details as you had last year to access your class channel. Please check the channel weekly as we will be sending homework and challenges via Teams.

Be Inspired

In PE we will be.....learning skills in

- Health Related Exercise
- Football
