

SKYLARKS ^{Footprints} NURSERY

Footprints

Nursery Newsletter: Term 4 February 2024

The children have had a lovely first term and have settled in really well. This term we will be building on the children's enthusiasm for animals by learning all about farm and zoo animals. We will learn about the noises they make, develop descriptive vocabulary and learn lots of new songs. We will also look at spring and changes in the environment. We will celebrate world book day and finish the term with Easter activities.

Our topic this term is **Footprints**

We will be learning through these songs and stories

Old Macdonald, I went to visit a farm, I went walking, say hello to the baby animals, 5 little ducks went swimming one day.

Speaking and Listening

Many of our stories and songs this term involve animal noises.

We will be listening for environmental sounds and using our voices to make sounds.

We will be developing our ability to listen to stories in a group and begin to make up our own stories and verses for songs.

We will develop both our descriptive and imaginative language through small world play.

Maths

Throughout the term we will be

- Saying numbers in order
- Using numbers in rhymes
 - Grouping animals
 - Talking about size
- Building enclosures with 3D shapes

Please support this learning at home.

Key Dates

World book day -7th March
End of term -28th March
