Now this is the Class Launchpad. The teachers have added tiles which link to a range of learning for your child.
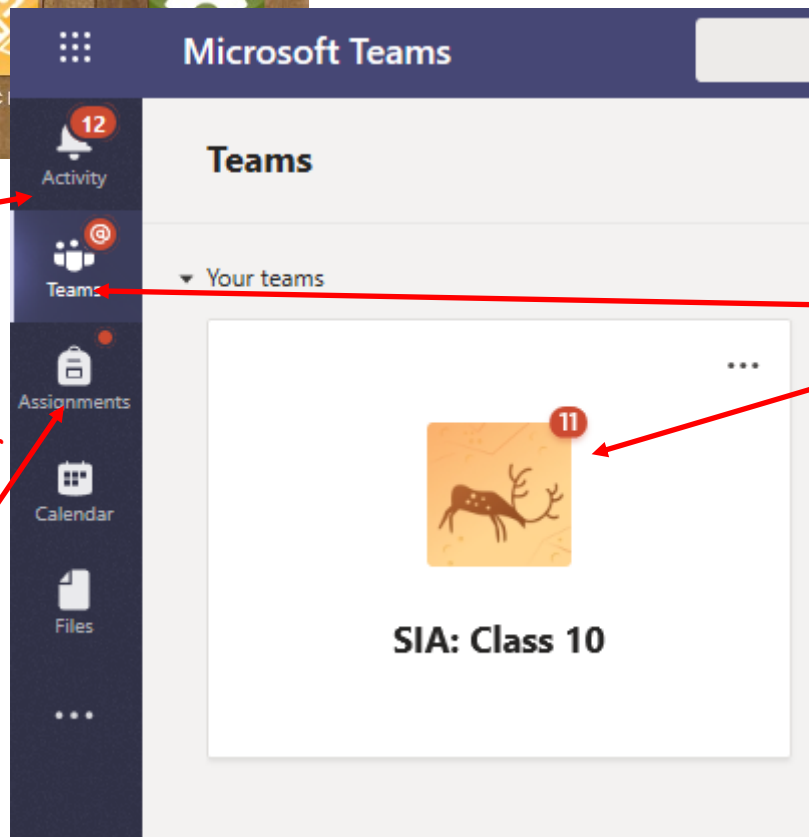

6. Click on the Teams tile. It will take you to your child's work and contact with their Teacher.

You may have to log in—if so then you just use your child's log in details as before.

SIA: Class 10

7. This tells your child when something has been posted onto their channel. Your child will be notified every time someone has posted—this includes other children too.
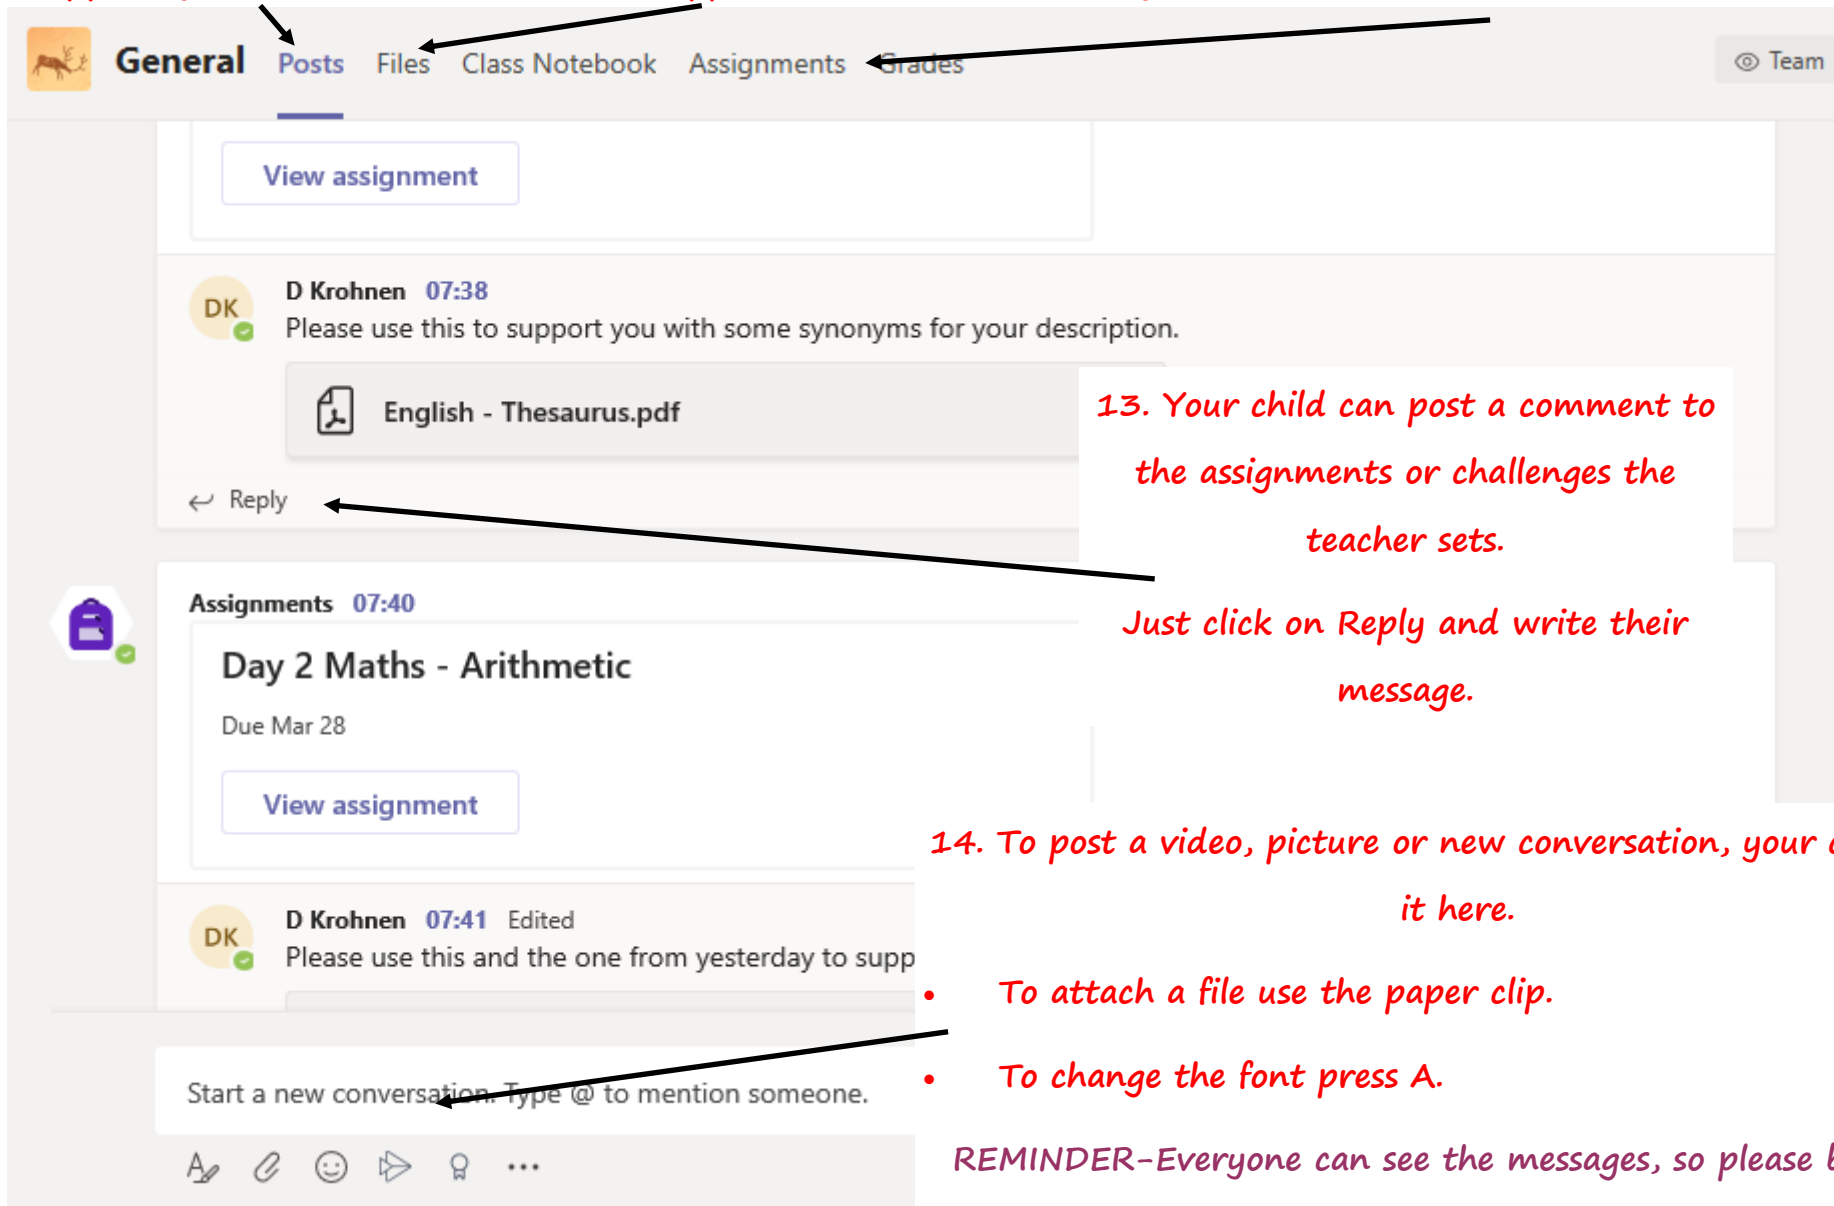

8. This takes your child to their Team where they can write to their teacher and see all the assignments they have been set.

9. This takes your child to the work the teacher has set. All you need to do is click and follow the links.

10. Posts—Where everything that is happening can be seen.

11. File—This is where the teacher has added any support material for each assignment.

12. Assignments—A collection of their tasks set by the teacher each day.
